## Special Stitches

### Working in Back, Front or Both loops:

Usually a stitch is worked over the two top strands of the stitch below it. When the pattern says to work in Front Loops Only, insert your hook into the top loop closest to you, starting the same way you would normally insert the hook, and ending by coming up between the two top strands. When the pattern wants you to work in the Back Loops Only, insert your hook in between the two top strands and out the back of your work.

**Sc next 2 stitches together:** Insert hook in first stitch, yarn over hook, draw through stitch, (2 loops on hook), insert hook into next stitch, yarn over hook, draw through stitch, yarn over hook, draw through all 3 loops on hook.

**Sc next 3 stitches together:** Insert hook in first stitch, yarn over hook, draw through stitch, (2 loops on hook), insert hook into next stitch, yarn over hook, draw through stitch, (3 loops on hook), insert hook into next stitch, yarn over hook, draw through all 4 loops on hook.

**Loop:** Using the diagram below as a guide, make a loop leaving it loose until instructed to pull the 3" end tight.

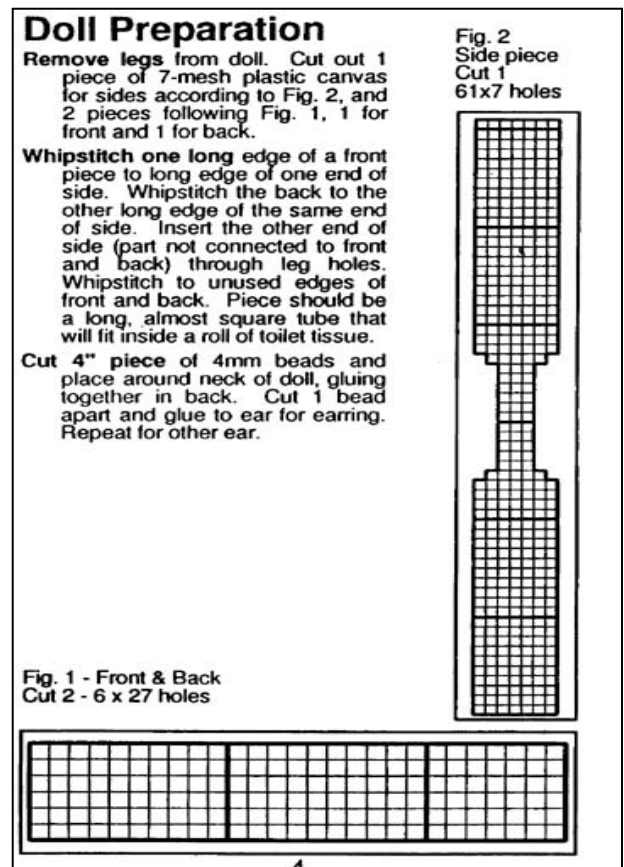

## Doll Preparation

For bathroom tissue option, remove legs from doll. Cut out 1 piece of 7-mesh plastic canvas for sides according to [Fig. 2](#), and 2 pieces following [Fig. 1](#), 1 for front and 1 for back.

Whipstitch one long edge of a front piece to long edge of one end of side piece. Whipstitch the back to the other long edge of the same end of side. Insert other end of side (part not connected to front and back) through leg holes. Whipstitch to unused edges of front and back. Piece should be a long, almost square tube that will fit inside a roll of toilet tissue.

Cut 4" piece of 4mm beads and place around neck of doll, gluing together in back. Cut 1 bead apart and glue to ear for earring. Repeat for other ear.

## Bodice
